## PARKING AND CAR PARK MANAGEMENT
Effortless control of employee and visitor parking: maximise resources, streamline admin

FLEXIBLE PARKING SOLUTIONS

- Control employee and visitor parking
- Optimise parking assets
- Enhance visitor experience
- Optional hardware integration: ANPR, barrier and digital signage
- Open APIs for third party integration

EMPLOYEE PARKING

- Book employee parking on any device
- Instant self-service parking bookings
- Allocate and manage employee permits
- Auto or manually approve bookings
- Blue badge and EV charging support
- Real-time reporting and capacity alerts

VISITOR PARKING

- One-click visitor parking bookings
- Branded host/visitor booking confirmation
- Directions to site and wayfinding
- SMS/email visitor arrival alerts

Seamlessly integrate your parking system with all or any Visitor.Express modules:

- **Visitor Management**
- **Desk Booking**
- **Meeting Room Booking**
- **Online Payments**

The Visitor.Express Parking app is flexible, efficient and simple to use — handing you and your business ultimate control of employee and visitor parking with minimal administration. With over 20 years' experience of delivering parking systems, we have developed Visitor.Express with highly flexible configuration options to fulfil almost any parking requirement. Easy set up, automated management, simple-to-book parking.

Quick and Easy Employee Parking

Empower your employees to manage their own parking with a simple booking process using any device. Allow instant bookings and/or allocate permits, with one-click cancellations to maximise your parking assets.

Visitor.Express also includes support for electric vehicle and blue badge parking.

Automate Parking Admin

Allocate permits for specific spaces, restrict to specific days or departments, allow hourly or daily parking bookings — and manage multiple sites, each with individual rules. Visitor.Express makes it simple to monitor occupancy and manage demand for parking.

A Great Visitor Parking Experience

Research shows happy visitors spend more and engage better, so give them a great visitor experience from the outset. Send instant branded visitor parking confirmation SMS/emails with directions to site and ensure your visitors arrive with less stress and more positivity knowing they have a defined space to park in for the duration of their stay.
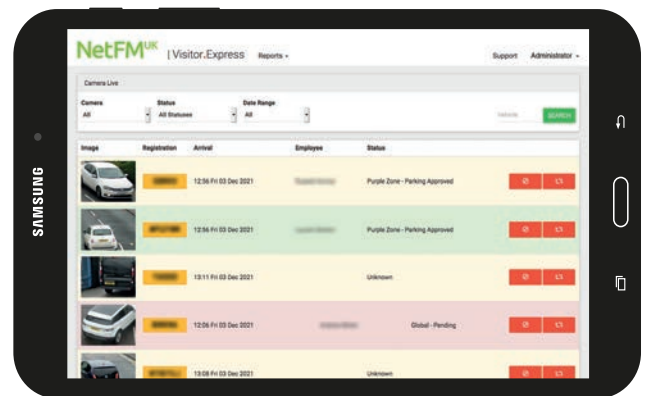

Visitor.Express delivers a simple one-click visitor parking solution and removes the stress of booking and managing parking for clients and suppliers.

NetFM UK

Streamline Car Park Administration, Maximise Parking Resources, Optimise Parking Experience
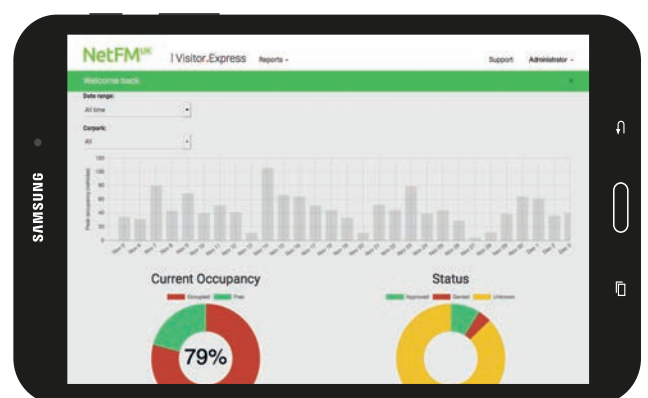

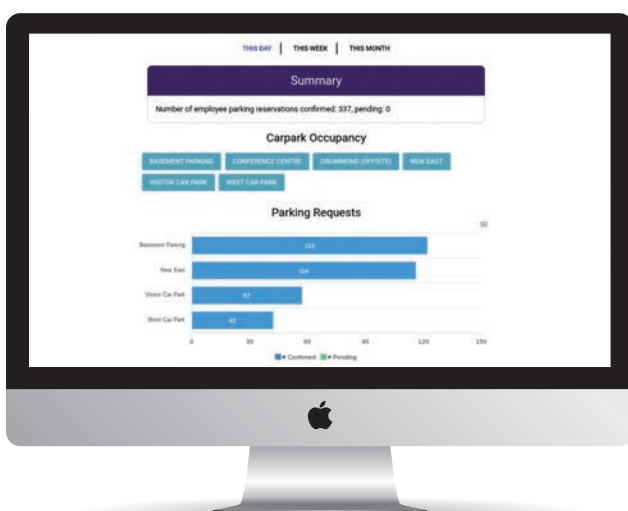

Visitor.Express gives your admin, security and facilities departments ultimate control of parking assets with a minimum of input or resources. Choose how your business delivers employee and visitor parking:

- Allocate physical or virtual permits and allow permit holders to release their space when not in use
- Offer unlimited bookings or restrict individual users or groups to a specified number of hours/days per week/month
- Activate our Fair Share algorithm to ensure all employees receive an equal number of bookings

- Live ANPR security view with usernames and permission status and "On Site Now" occupant reporting
- Support security teams by tightly controlling self-service real-time bookings and monitoring car park occupancy
- Bespoke reporting with historic and real-time data

Multiple onboarding options, downloadable reporting and access to a full data admin area makes the initial system set-up and ongoing management a breeze.
